

Fondazione Oronzio e Niccolò De Nora

2010 Prizes

- **Electrochemical Society (USA):**
Oronzio De Nora Industrial Electrochemistry Fellowship: Angela Zhang, Vanderbilt University, Nashville TN (USA)
- **International Society of Electrochemistry (ISE):**
 - **Young Author Prize: Katarzyna Szot - Polish Academy of Sciences Warsaw (Poland)** for the article “Hydrophilic carbon nanoparticle-laccase thin film electrode for mediatorless oxygen reduction SECM activity mapping and application in zinc-dioxygen battery” published in *Electrochimica Acta* 54 (2009) 4620.
 - **Prize on Environmental Electrochemistry ex-aequo: Ignacio Sirés Sadornil - University of Barcelona (Spain) and Minghua Zhou - Nankai University Tianjin (China)** in recognition of their significant contribution to the use of advanced electrochemical technologies for wastewater treatment.
 - **Prize on Applied Electrochemistry: Marian Chatenet - Grenoble-INP, LEMPI (France)** for his outstanding research accomplishments on fuel cell catalysts and durability.
- **Società Chimica Italiana:**
 - Prize to **Alessandra Fernicola - University of Rome “La Sapienza” (Italy)** - “Ionic liquids as advanced electrolyte components for proton and lithium ion transport”
 - Prize to **Jijeesh Ravi Nair - Politecnico di Torino (Italy)** - “UV-curable polymer electrolyte membranes for lithium-based batteries application”
